Relationships and Services

What Investment Services and Advice Can You Provide Me?

We offer investment advisory services to retail investors.

Portfolio Management Services: When providing these services on a discretionary basis, we will manage your assets while we continuously monitor your custodial accounts and provide you with continuous and ongoing supervision of your custodial accounts at least annually. When discretionary authority is granted via execution of our investment advisory agreement, we will have the limited authority to determine the type and number of securities to be purchased or sold for your portfolio without obtaining your consent for each transaction.

Portfolio Consulting Services: We provide portfolio consulting services where the investment advice provided is custom-tailored to meet your needs and investment objectives. Upon retaining our portfolio consulting services, we will gather information about your financial situation and objectives, and assist you in determining your investment goals, objectives, risk tolerance, and retirement plan time horizon.

You may/may not place reasonable restrictions on the types of investments that may be purchased or sold in your account so long as the restrictions are explicitly set forth.

We offer advice with respect to various products and types of investments. We do not have a minimum account size for our Portfolio Management services.

For additional information, please see Items 4 and 7 of Part.

- Given my financial situation, should I choose an investment advisory service? Why or why not?”
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

Fees, Costs, Conflicts, and Standard of Conduct

What Fees Will I Pay?

For Portfolio Management services, you will pay an annual fee based on the total assets under management. The fee is payable quarterly in arrears. For portfolio consulting services, you will pay an hourly fee. Hourly fees are payable upon completion of services.

We charge an asset-based fee, which means that the more assets there are in the clients’ advisory account, the more the client will pay in fees. As such, we may, therefore, have an incentive to

encourage our clients to increase the assets in his or her accounts. You may pay additional fees, including custodian fees, fees related to mutual funds, and other transactional fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For additional information regarding our fees and costs, please see Item 5 of Form ADV.

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What Are Your Legal Obligations To Me When Acting As My Investment Adviser? How Else Does Your Firm Make Money And What Conflicts Of Interest Do You Have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

Our Portfolio Management fee structure gives us the incentive to encourage clients to increase their assets in his or her accounts.

How might your conflicts of interest affect me, and how will you address them?

For additional information, please see Items 5 and 10 of Part 2A.

How Do Your Financial Professionals Make Money?

Our financial professionals are compensated based on the amount of client assets they service or revenue we earn from the financial professional's advisory services.
